# Convert pdf to base64 encoded string online

## Input Data

Type/paste your text to encode or base64-encoded data to decode  
**OR** select a file to convert to base64 or read as base64.

Text Input:

File Input:  ILFS.pdf

(Max 4MB)

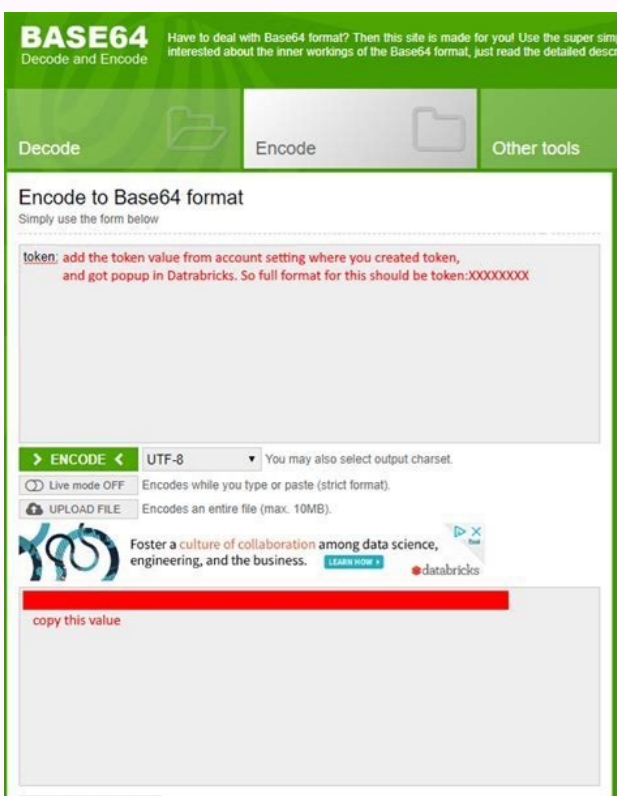

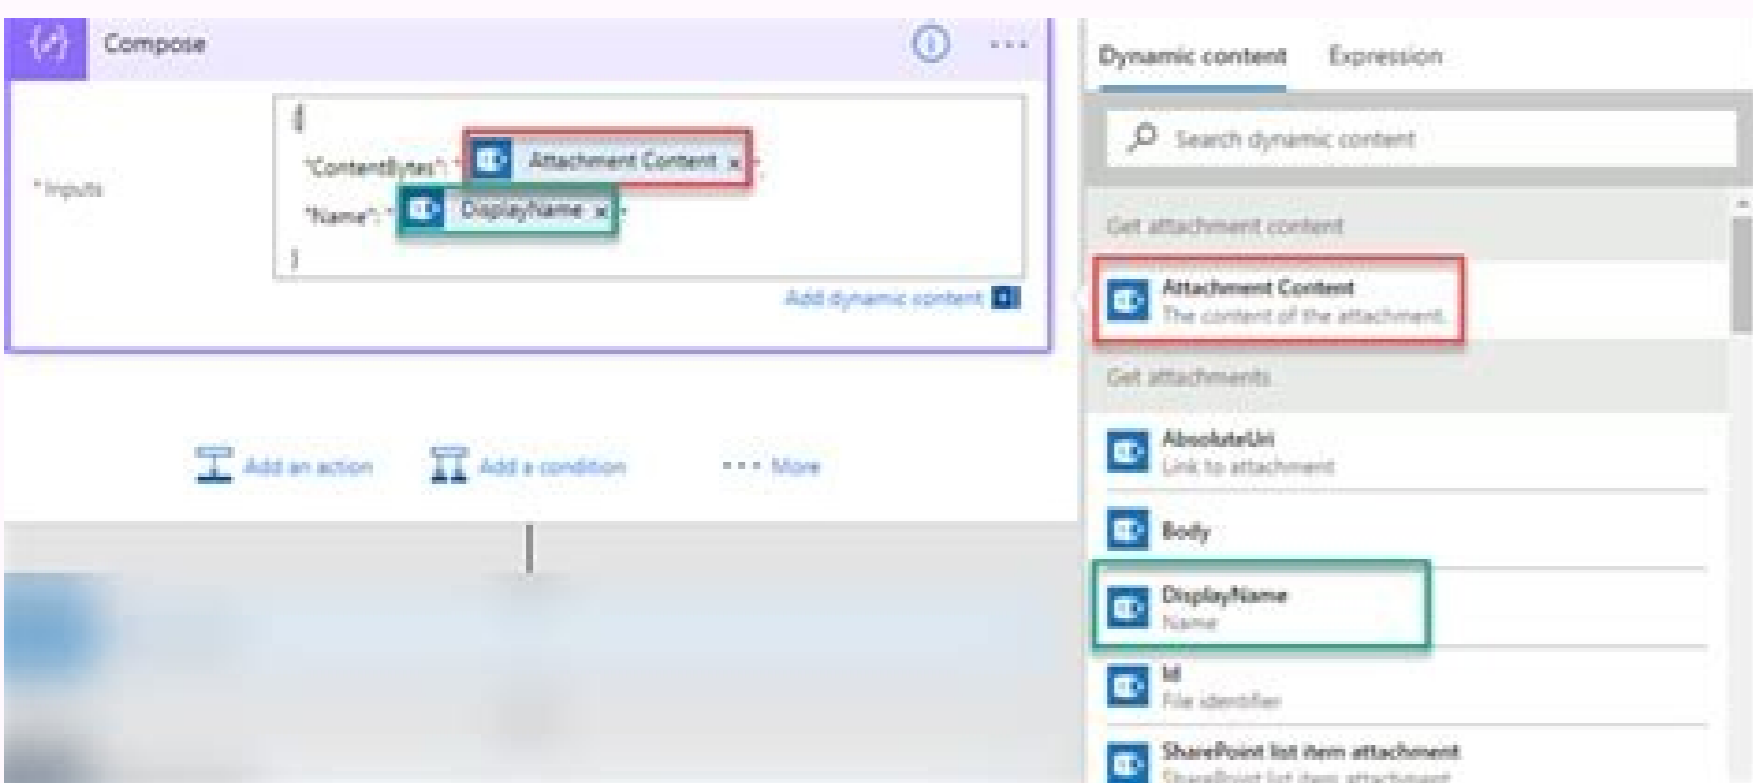

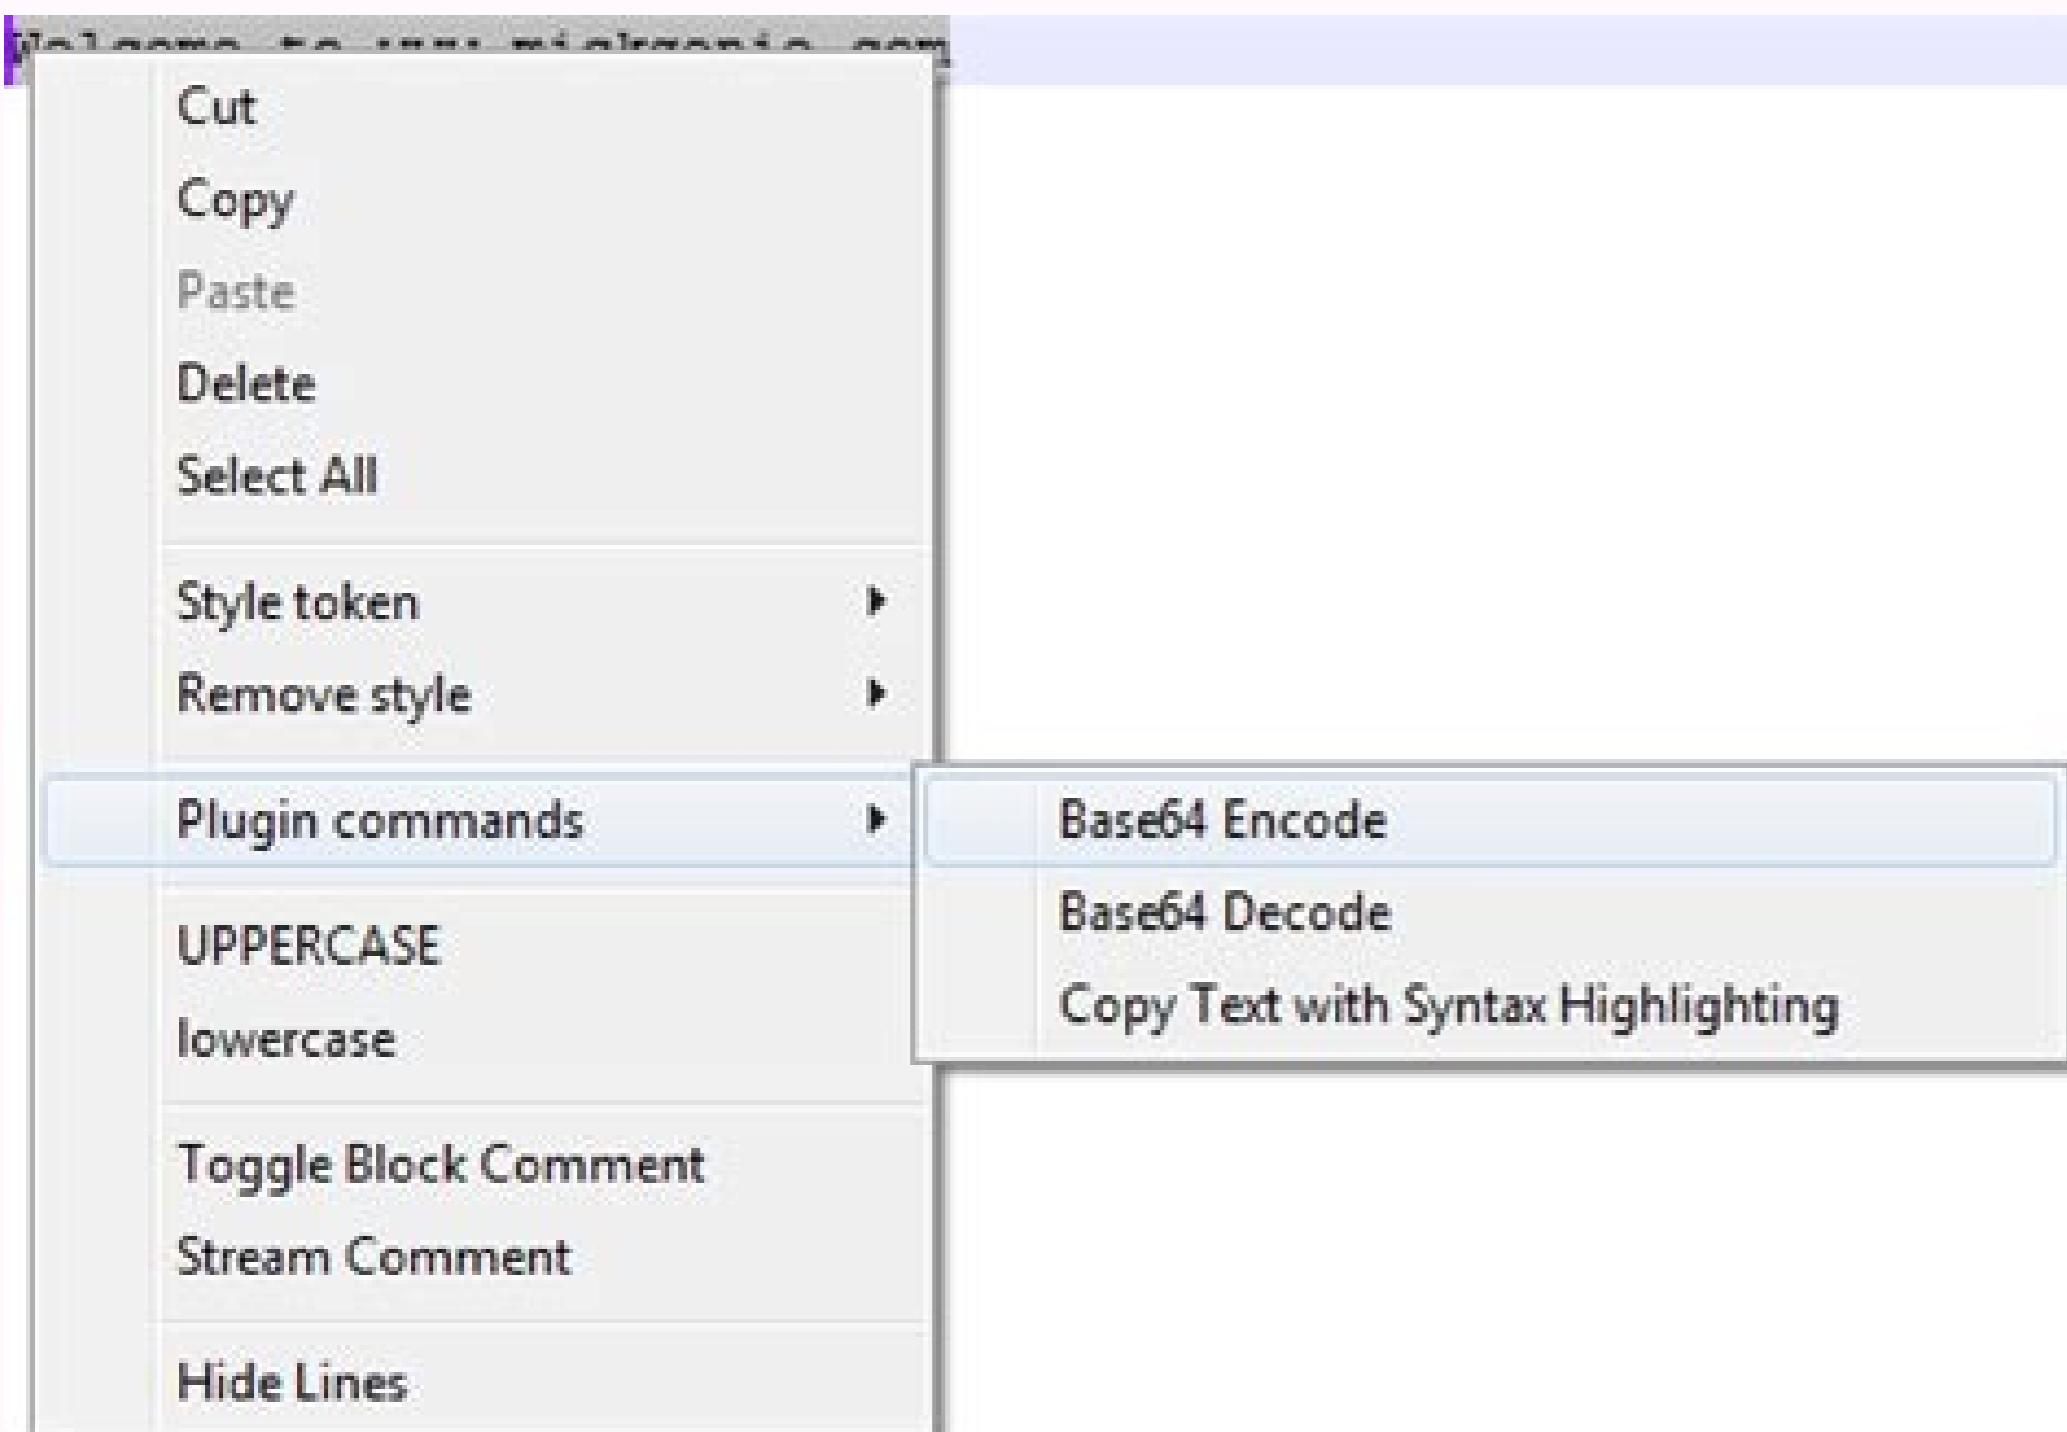

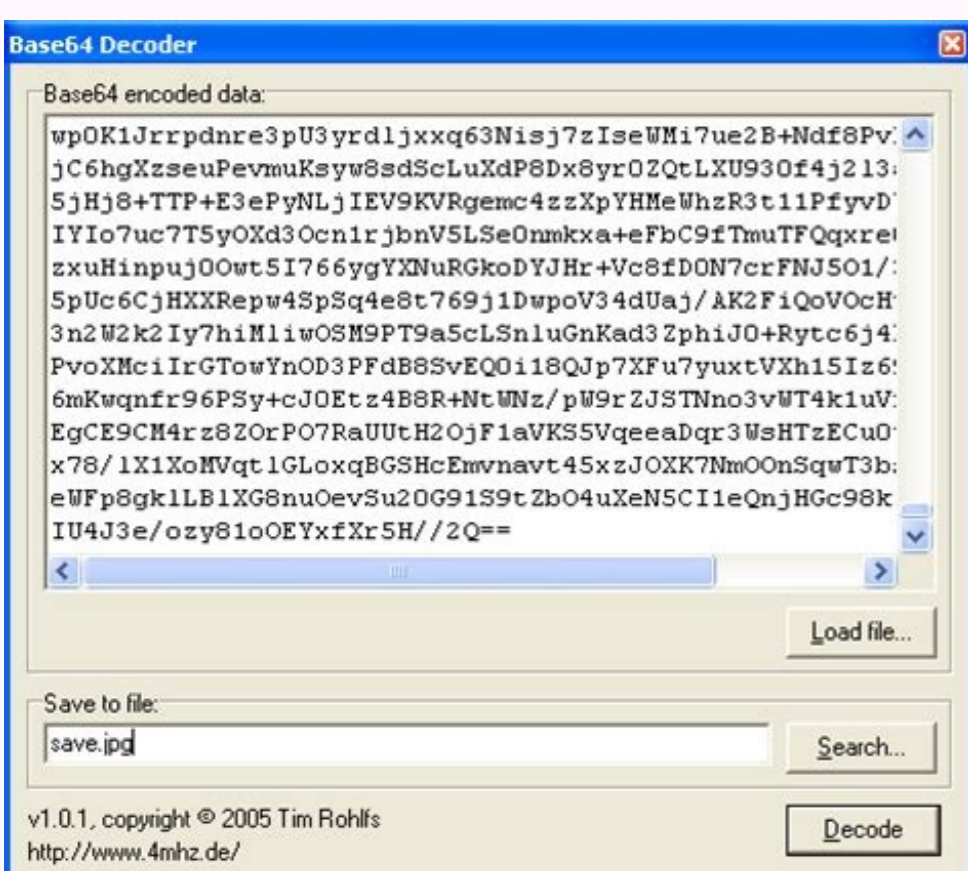

## Output Data

With input:  Auto  Decode  Encode

Leave "Auto" checked to have us determine whether to encode or decode it.

We will automatically determine the output based on the data. For example, we will output raw text or base 64 text directly, display images in img tags, and allow you to download other files.
